

I am writing you to express my concern over moving my favorite radio station to a LPFM. K-LOVE is more than just another channel on my dial. It means so much more to me. K-LOVE has been there to lift me up and encourage me in some of the darkest times I have faced. Not only do they seek to be positive and encouraging to their listners, but they also take a personal intrest in them as well. K-LOVE DJ's, workers, and ministers actually take time every day to pray specifcly for their listeners and individual prayer requests. What other radio station cares that much about their listeners?

K-LOVE brings a huge benefit to all the communties that receive it's signal. There are testimony after testimony of people who have been brought to the Lord, helped through difficult times, and even been talked down from committing suicide all because of K-LOVE. I am sure that there is no other radio station that has touched as many lives in a positive way as K-LOVE has. If K-LOVE was to be moved to a LPFM station that runs the risk of many communities loosing their K-LOVE signal. Also, there would be communities that K-LOVE is not currently being broadcast to that would never get that chance. Thank you for taking the time to read my comments. I pray that the FCC will make the right decision in this matter.

Sincerely,
Jessica Jewell
